

You are invited to join the national discussion on our federal budget.

Our national deficit is projected to grow at an unsustainable rate over the next 10 years. Our nation's leaders have decided that something needs to be done, but they need to hear from us and they are willing to listen. It is time to come together as a country to make the tough choices that will ensure America's future.

Des Moines has been selected as one of only 18 sites for an unprecedented national discussion on the national debt. Iowa is at the forefront of the national political scene with our first in the nation caucuses. Now let's make sure our state is also heard on critical issues affecting our nation.

A diverse group of local citizens will come together June 26th at Drake University, linked online with the eighteen other sites across the country to learn about the issues involved, find common ground, and present our priorities to leaders in Washington.
